Farm financials are one of the most useful and least used reports for many farming businesses. Through Model One; you will gain an understanding of how to read and interpret this report and what it can tell you about your business. Your bank is a key stakeholder in your business. This workshop will explore how banks assess you and your business along with sharing a number of tips to help make this important relationship as beneficial as possible.

Model One is an introductory interactive virtual classroom facilitated over two sessions of two hours. The workshop provides practical hands-on skills in understanding financial statements and banking requirements. This complimentary workshop is a collaboration between Rabobank and RaboClientCouncils with their content and facilitation partner, Hudson Facilitation.
